

Executive Build Committee

Following the important vote of May 17, plans are underway for the next step on the way to a new worship center for St. John's.

The names of volunteers for an Executive Build Committee will be shared with the church council at their meeting on June 11. With the approval of the council members, the Build Committee will be comprised of two groups functioning independently of each other yet in communication and support of each other. One group will be charged with the task to gather opinions and information regarding the ranking of aspects of a building in importance, financial support, and building features. The other group called the "Bricks and Mortar" people will be reviewing the information gathered from the Vision group and begin the task of designing and planning the new build.

Once the basic plan for the building begins to take shape, the council will be inviting a professional fundraiser to St. John's for a capital funds campaign. Opportunities to serve on a variety of specialized committees will be arising as the process continues.
